The subject of John Macnicol's book is both narrower and broader than its title would indicate: narrower in that its

focus is on twentieth-century Britain, with rich comparative coverage of the United States; broader in that it looks not only at age discrimination in terms of attitudes and labor law but also at major issues in the history of **Age Discrimination - Cambridge University Press**. Age discrimination is a highly topical issue in all industrialised societies, against a background of concerns about shortening working lives and ageing populations in the future.
