Examining the history of archaeology from medieval times to the present, this book places the development of archaeological thought and theory within a broad social and intellectual framework. The successive but interacting trends apparent in archaeological thought are defined and the author determines the extent to which these trends reflect the personal and collective interests of

American archaeology today encompasses a huge range of approaches and draws eclectically on a multitude of academic disciplines. Until now, however, there has been no book seeking to separate the main strands and traditions of research and present a rounded picture of American archaeological thought in all its diversity. The seventeen essays in

Description : Archaeological Theory in the New

Millennium provides an account of the changing world of archaeological theory and a challenge to more traditional narratives of archaeological thought. It charts the emergence of the new emphasis on relations as well as engaging with other current theoretical trends and the thinkers archaeologists regularly employ.
