Richard Timberlake's new book Constitutional Money is a valuable contribution to this latter line of research, both in itself and as a complement to the work in the institutional-theoretical line. The book is structured as an alternating presentation of the U.S. Supreme Court's decisions in cases relating to the constitutionality of money and Timberlake's commentary on these decisions.

The first was a gold-silver standard that was framed in its essentials by the U.S. Constitution. In practical terms, it said that any legal tender money created by the federal union or the states or the people had to be gold or silver coins, or redeemable in gold or silver coins of specified weight and fineness. Since both gold and silver were constitutional media, the country had a
