Many environmental concerns were treated by early American nature writers, who recognized the beauty of the natural world in an age of commercial expansion. Some of the most famous writers of the 18th and 19th centuries wrote about nature, and their works are stylistic masterpieces. At a time when students are being encouraged to read and write about nonfiction, these masterworks of early American nature writing are all the more important. This book gives students and general readers a

American Nature Writers by John Elder - Goodreads
From "Walden" to "Arctic Dreams," nature writing is a powerful American literary tradition. The essays in the set combine biography, criticism, and in some cases, interviews to tell the story of each author. This set includes 70 biographical/critical essays on such writers as Rachel Carson, Ralph
