Dr. Joseph Murphy calmly, carefully, and engagingly pulls together decades of research on homeschooling to offer the reader a well-reasoned speculative model regarding what might explain the positive effects of homeschools on the academic and social learning of children (p. 160). Murphy's is an exceptionally readable and engaging treatise for both the academic and layperson.

Homeschooling in America (paperback). This book is the definitive study on homeschooling in the United States, delving into a movement that impacts more students nationwide than the entire charter school movement. In 2010, more than 2 million students were homeschooled. This book explores: The history of homeschooling in America allow this
