Workplace rules and norms built around the family wage ideal, the assumption that disability and work are mutually exclusive, and management's historical control over time all constrain opportunities for social change. Yet workers can also mobilize rights as a cultural discourse to change the social meaning of family and medical leave. Drawing on theoretical frameworks from social constructivism and new institutionalism, this study explains how institutions transform rights to recreate

Institutional Inequality and the Mobilization of the ...
Yet workers can also mobilize rights as a cultural discourse to change the social meaning of family and medical leave. Drawing on theoretical frameworks from social constructivism and new institutionalism, this study explains how institutions transform rights to recreate systems of power and inequality but at the same time also provide opportunities for law to change social structure. It provides a fresh look at the perennial debate about law and social change by examining how institutions
