Structural Economic Dynamics by Luigi Pasinetti (ebook)

This book is a theoretical investigation of the influence of human learning on the development through time of a 'pure labour' economy. The theory proposed is a simple one, but aims to grasp the essential features of all industrial economies.

Structural Economic Dynamics - amazon.com

The author shifts the theory of long-term economic development away from the traditional framework based on capital accumulation to new foundations based on learning and technical progress. He gives a detailed analysis of the structural dynamics of prices and production, and the necessary mobility of employment. Institutional and social learning, know-how, and the diffusion of information emerge as the decisive factors accounting for the success and failure of industrial societies.
