The Environment and Christian Ethics - Michael S ...

Northcott argues that Christianity has lost the biblical awareness of the interconnectedness of all life. He shows how Christian theologians and believers might recover a more ecologically-friendly belief system and life style. The author provides an important corrective to secular approaches to environmental ethics, including utilitarian individualism, animal rights theories and deep ecology.

Finally, Northcott demonstrates how Christian natural law ethics extends the Hebrew ecology and provides the basis for a critical response to technological society. This is a well-written book, nuanced in its arguments and comparable, this reviewer believes, to Carolyn Merchant's *The Death of Nature* (1980) in its rehabilitation of the past. Highly recommended for upper-division undergraduates. The Environment And Christian Ethics (New Studies In ...
