A social convoy consists of people, often family members and close friends, who move through life with an individual and have an important influence on that individual's well-being. The social network refer to structural characteristics of a person's social ties, including the number, age, sex, relationship, and frequency of contact with people who are part of it. Those in the inner circle of a person's social network are most likely to be part of the person's social convoy. Social networks (PDF) The Neuropsychiatry of Shamanism -
